

As writers we will be exploring the features of instructional writing. We will again, be working on our fiction writing, writing an extended piece.

We will be practising our spelling and grammar skills using games, homework and other activities.

As Mathematicians we will look at a range of written methods for addition, subtraction, division and multiplication. We will also learn about fractions, decimals, measurements, geometry and statistics and how to apply these skills to reasoning questions.

As Scientists we will describe the life cycles of different living things, e.g. mammal, amphibian, insects and birds. We will describe the differences between creature's life cycles. We will learn about the process of reproduction in plants.

We will create a timeline to indicate stages of growth in humans.

### Mathematics

We will be using all our prior knowledge in arithmetic to solve reasoning problems.

### Science

We will continue to learn about biology, including different life cycles and how plant reproduce.

### Computing

We will be looking at websites. What makes a good one? What is copyright?

### PSHCE and RE

PSHCE: Keeping healthy including effects of smoking.

RE: What difference does the resurrection make to Christians?

### Literacy

Fiction Genres and instructions.

Vocabulary building, grammar and spelling.

### Medical School

### The Arts

Taking part in the 'Young Chef of the Year awards'.

### P.E

Tri-golf and gymnastics.

### Humanities

The history of medicine.

In DT we will be cooking, learning about preparing food and food hygiene and menu planning.

More information to follow on this competition.

In PE we are learning skills to improve our skills in tri- golf and gymnastics.

As Historians we will learn about illnesses of the past and learn about famous scientists and their work in medicine.

### Homework

Homework is explained in your half termly homework challenges leaflet. This also includes a topic based piece of homework which will run for the half term.

This homework is in addition to reading which should be happening every night. It would be valuable for your child, to read aloud to you, 2-3 times a week, for about 5-10 minutes at a time. Please remember to sign their reading record book. When you listen to your child read, you could ask them questions about their opinion of the book and what they like and possibly dislike about it. See the questions in the half termly homework challenges leaflet.

Thank you for your support and please see me if there are any queries.

### PE and Music

This term in PE the children are learning the skills in cross country and bench ball.

They need their PE kits on Monday and Thursday.

In Music, the children are being taught to play the recorder.

## **Lyng CE Primary Academy**

Oak class

Spring Term 2 2023

Curriculum Newsletter

Dear Parents and Carers,

Welcome to the second part of spring term in Oak class.

We will continue our theme based around attending Medical school.

We are excited to be taking part in the 'Young chef of the year awards', as part of our DT lessons and preparing to perform in a music competition at St. Andrews Hall in Norwich (details to follow).

It continues to be a very important term for Year 6 with their SAT's tests in May. We will be revising so we can all perform at our best ready for High School. As usual, I look forward to seeing the children's independent work from their half termly homework.

Miss Wharton
