Your maths challenge for this half term is to know all your times tables from the 2 times table to the 12 times table.

This might involve learning them really well.

If you already feel confident with them, you could make revision posters or a booklet about the times tables. You could extend your learning by looking for number patterns in the answers. You could challenge yourself with multiplication sums. E.g. a 3 digit number x a 2 digit number.

Reading

Can you practise reading every day?

Can you answer these questions with an adult about the book you are reading?

Before reading the book:

What might happen in this story?

What genre will this story be? E.g. fantasy, horror or comedy.

During the book:

What has happened so far?

What might happen next?

How do you think the story might end?

Who is your favourite character? Why?

Find two sentences that describe the setting.

Is the plot fast or slow moving? Find some evidence in the text, which supports your view.

At the end of the book:

Would you change any part of the story? How?

Would you change any of the characters? How?

Which part of the story was the funniest, saddest, scariest, saddest and happiest?

Find some evidence in the text to support your opinion.

If you met one of the characters from the story, what would you say to him/her
